

Dear student,

Warm greetings from the Amsterdam University of Applied Sciences, Faculty of Digital Media and Creative Industries, BA programmes Communication and Creative Business.

This is our online application service for enrollment.

- Create an account by clicking 'Register' on the homepage
- Fill in your details in the top right corner under 'Profile'

Documents

Please have the following documents ready when you start your online application:

- ✓ Copy of a valid passport or EU ID card
- ✓ CV in English
- ✓ Letter of motivation in English
- ✓ Copy of an official and recent transcript in English
- ✓ Proof of health insurance
- ✓ Erasmus forms (EU-students) or Learning agreements (non-EU)

Housing

On the profile page, you can also indicate if you would like the international office to reserve housing for you. We highly recommend you make use of this service. If you choose to arrange housing by yourself, please be aware that you will have to start searching soon. Finding affordable housing in Amsterdam can be very challenging. Do not wait until the last moment! The international office can provide you with tips & tricks on where to look.

Course modules

Our curriculum consists of Stones modules, which are integrated modules of 15 ECTS. Students can participate in English-taught Stones or a Challenge at various levels and work together with Dutch students. Grading of the Stones is also integrated, and all students will receive one grade for either the 15 ECTS Stone or the 30 ECTS Challenge. International students can either take one Stone, two Stones or one Challenge.

The difference between a Stone and a Challenge:

A Stone (15 ECTS) lasts for 10 weeks and a Challenge (30 ECTS) for 20 weeks. In the 15 ECTS Stones, students work on an industry-related case, learning and using the appropriate knowledge, skills and research and reflecting on this process. In a Challenge, students solve a 'wicked problem': a complex problem for which the formal question has not yet been fully defined, such as which stakeholders and/or target groups are involved.

Clusters

Now you can start to apply for one of our stones modules. First read the individual module descriptions on our website: <https://co-cb.nl/international/exchangeprogrammes/>

- Go to the tab 'Enroll'
- Choose: 'Incoming exchange'
- Now you see the available stones modules (complete programme of 15 or 30 ECTS in case of a Challenge) - You can simply add a module by clicking the + behind the module name
- Done? Click 'Next' and 'Submit'

Many thanks in advance for using our online application service! Should you have any questions or concerns, do not hesitate to contact us at international-co-cb@hva.nl
